AFFAIRS IN EUROPE.

ANXIETY FELT FOR MR. GLADSTONE'S HEALTH.

A Petty Princeling Shows His Independence of the Kaiser—Buenos Ayres Bankrupt—The Irish Evicted Tenants Making Terms With the Landlords, Etc.

LONDON, May 12.—A Berlin dispatch says that the Grand Duke of Mecklenburg-Strelitz has openly remarked in the presence of officers of the garrison that the Kaiser over-stepped his bounds when he called himself master of Germany. The Grand Duchy is noted for partisanship, and the Grand Duke did not order any celebration of the Kaiser's birthday this year. He considers himself an independent prince, and declined to have anything to do with Prussia. The Grand Duke is not alone in his sentiments, the present Kaiser having gone much farther than his grandfather in intruding upon the seperate sovereignty of the lesser German states, and having given offence to several of the rulers. The union of Germany is not popular with some of these princes, who feel that they no longer occupy the position of independent sovereigns, and whose power over their subjects is restrained by imperial limitations.

THEY DO NOT LIKE THE NEW LAW.

The Duke of Ratibor did not wait until the passage of the trades regulations bill before complying with its provisions. He anticipated its adoption and six weeks ago he ordered the overseers of his estates in Silesia and Franconsia to adopt rules in accord with this measure. Generally, however, the manufacturers and mine owners are deeply irritated by the passage of the measure and show a disposition to evade its requirements.

ANXIETY FELT FOR GLADSTONE.

Although Mr. Gladstone's illness is not yet reported to be serious, the incident has caused consternation in the Liberal ranks. Mr. Long, the Scotch Radical member of Parliament, is quoted as saying that the Radicals need the Liberals and the Liberals need the Radicals and Mr. Gladstone is the only man in the world that can keep them together.

AN INSOLVENT CITY.

A dispatch from Buenos Ayres says that city is practically insolvent. The government employees have not been paid for many weeks, and there is now due to them nearly $1,000,000 in salaries and wages. The municipality is unable to collect taxes because the people have no money, and the little cash in the city treasury is needed for absolute necessities. The customs receipts also show a decrease of nearly one half.

THE EVICTED TENANTS.

The condition of the remaining evicted tenants in Ireland is said to be very bad, and something seems to be radically wrong with the administration of the funds. The tenants on the Glensharrold estates appear to have been subjected to ill treatment, as they claim, by the Land League. One man, who has been evicted for eight months, has never received a penny from the Land League funds; others say they were coerced into submitting to eviction, and ruined by doing so, their farms being now a wilderness and their pockets empty. Many of them have received nothing since the first of November. The two Irish factions each blame the other for the situation. The tenants have nearly all made terms with the landlords.

A TITLE WITH THE NEW FAITH.

The Czar has conferred a new title on the Grand Duchess Elizabeth (Queen Victoria's grand daughter) on account of her conversion to the orthodox church of Russia. Hereafter she is to be styled "The Grand Duchess of the True Faith." The relatives of the Grand Duchess in Germany and England do not approve of the honor as much as they might.

AN AMBASSADOR'S HOUSEHOLD.

A Vienna correspondent says that Zia Pasha, the Turkish ambassador in that city, has created some scandal by causing one of his wives to be so severely beaten that her cries resounded through the neighborhood. The castigation is said to have been performed by a black nondescript, who came with the household from Constantinople, and it is rumored that the tendency of the fair Turkish woman to gad abroad in Vienna had something to do with the performance.

U. S. Naturalization Laws.

LONDON, May 11.—The Observer, commenting on the New Orleans embroglio, attacks the whole system by which foreigners are made citizens of the United States and declares that the method by which the New Orleans Sicilians were made Americans would not be regarded as binding in any civilized country. The writer instances the way in which American consuls abroad in the troublous times of 1884 in Europe converted Italian, Polish and Hungarian refugees into American citizens. He predicts that the United States will yet be obliged to change some of its laws bearing on this and cognate questions, and that the trouble with Italy is far from being settled.

Brutality of the Czar.

ST. PETERSBURG, May 12.—The Czar has ordered the Jewish banker, Ginsberg, to quit St. Petersbug and close up his business there, for an open attempt to influence the minister of the interior to ameliorate the condition of the Jews by offering to devote a million roubles to charity.

Mr. Gladstone Sick.

LONDON, May 11.—Right Hon. Mr. Gladstone is the latest prominent man of Great Britain on the sick list. He went to church yesterday and seemed to be enjoying his usual health. In the afternoon, however, the veteran statesman was seized with a succession of shivering fits. Sir Andrew Clark, Gladstone's family physician, though not pronouncing his illness to be of a serious nature, declares that Mr. Gladstone will not leave his room for several days.

LONDON, May 12.—Gladstone is this morning reported as still feverish but otherwise as progressing favorably. The attack of influenza is of a mild type.

A Dynamite Bomb.

LISBON, May 12.—A dynamite bomb was exploded to-day at the office of the Minister of the Interior. The shock was tremendous and caused great alarm and excitement, but no serious results followed. The police are as yet unable to obtain any clue to the author of the outrage.

Returned Unopposed.

LONDON, May 12.—Right Hon. William Henry Smith, Government leader in the House of Commons, recently appointed Warden of the Cinque Ports, and who in consequence of such appointments was obliged to go before his constituency for re-election, was yesterday returned unopposed.

The Manipur Rebels.

CALCUTTA, May 10.—Information has been received to the effect that friendly Manipurs have captured the regent and that the Manipur general in chief has yielded.

ATTEMPTED ASSASSINATION

Of the Czarwitch in Japan—He Will Recover Although Badly Wounded.

BERLIN, May 12.—A dispatch from Tokio reports that an attempt has been made upon the life of the Czarwitch, who is seriously wounded, but in no danger of dying. only the most meagre particulars are at hand. From what little is known it seems that the Czarwitch was suddenly attack from behind by a Japanese who was armed with a sword. The motive of the crime is not known.

LONDON, May 12.—A dispatch has been received here confirmatory of the report that the life of the Czarwitch was attempted in Japan. The dispatch says the attack was made yesterday, and that the scene was at Kioto, now officially Saikaio, or western capital, and formerly capital of Japan, on the island of Hono, 27 miles by rail northeast of Oasoka and 25 miles southwest of Tokio.

A SPANISH TREATY.

Provisions of Foster's Reciprocity Convention—Cuba's Ports Opened.

MADRID, May 10.—General Foster, the American reciprocity envoy, having failed in the negotiations for a general treaty between Spain and the United States, suggested a secret treaty, which also failed to meet the approval of the Spanish ministry. He, therefore, agreed to conclude a simple convention on the basis O'Donnell proposed for a treaty. This convention necessarily comprises a double tariff, the first commencing July 1 and enduring till the Spanish treaty with other powers are denounced in July, 1892, when the second comes into operation.

The convention provides for free entry into the United States of sugar, cocoa and skins for the Spanish West Indies, tobacco and iron ore are paying the duty exacted by tariff. In exchange, Spain's colonies in the West Indies are to receive American coal, ice, wood, boots, shoes, fresh and salted meats and fish, either free or under a small duty, while butter and drippings are entirely exempted, and the duty on flour is reduced from $3.50 to 50 cents per barrel, with the same reduction on corn. The tariff on dry goods and husbandry machinery will afford the United States no material advantages until 1892, because any privileges accorded will be repeated by Great Britain, France Germany and Belgium under the favored nation treaties, thus injuring America's future interest. Competent authorities calculate that Cuba will suffer a reduction in custom receipts of $300,000 monthly by the convention.

THE NEWFOUNDLAND QUESTION.

Newfoundlanders Go Out in Force, but are Overpowered—Favors Arbitration.

HALIFAX, May 10.—The latest advices about affairs at Fortune Bay, Nf., are to the effect that eighty schooners had escaped with bait to St. Pierre. The crews of the schooners disposed of the bait all right, but thought they could not get home again and escape the law. After deliberation in St. Pierre, thirty five men determined to risk it and accordingly put out for home. They were accompanied by 20 more schooners which were not in the bait traffic, but whose crews sympathized with them. The Tiona, Lady Glover and the Favorite helplessly followed. The men on board the schooners threatened to fire if they interfered with them. The fleet got into St. Jacques in the evening and the smugglers soon ascertained the strength of the bait protection squadron as represented by the crews of the Tiona and Lady Glover. They landed with the determination to defy arrest. The Tiona and Lady Glover received reinforcements by the steamer Conscript, and the men, seeing they had overwhelming numbers to deal with, gave in. Thirty-five men were at first arrested, but that number was afterward reduced to eight who are considered to be the ringleaders of the lawbreakers.

PARIS, May 10.—The report to the Senate by the committee on the Newfoundland arbitration convention, after referring to the treaties upon which France bases her claims, concluded by urging the Senate to adopt the bill. The committee looks forward with confidence to the decision of the arbitrators.

San Drowning Accident.

WINNIPEG, Man., May 12.—Harry Williams, a young man who arrived from Parkhill, Ont., only a few days ago, was drowned while rowing on Red river last night. He attempted to change places with his comrade, George Elliott, also of Parkhill, and in doing so lost his balance, fell overboard and drowned.

AMERICAN DISPATCHES.

THE U.S.S. CHARLESTON AFTER THE CHILIAN SHIP ITATA.

Suspended From Rank One Year—Negro Lynched in Maryland—Secretary Blaine Under the Weather—The Next Secretary of the Interior.

SAN FRANCISCO, May 12.—It is stated this morning that the cruiser Charleston is making for Acapulco Harbor, word having reached here that the Itata had gone there to rejoin the Chilian insurgent cruiser Esmeralda, which is said to be taking in coal at Acapulco. Richard Trumbull, member of the Chilian Congress, and one of the leaders of the insurgents, who was arrested in this city last night, on a charge of violating the neutrality laws, in shipping arms and munitions of war on the schooners Robert and Minnie and the steamer Itata, said to-day that he would not proceed to Washington until the charge against him had been investigated. Trumbull, when asked about the chase of the Itata and the possibilities of her being overhauled by the Charleston, gave as his opinion that the Charleston would never overtake her.

An Officer's Punishment.

WASHINGTON CITY, May 12.—The judge advocate of the navy to-day completed the review of the proceeding of the court martial in the case of Lieut.-Com. George A. Bicknell, the officer tried at New York last week on the charge connected with the disaster to the Galena and Nina, and the papers are now ready for the action of the secretary. It is now positively known that Lieut.-Com. Bicknell was found guilty of the charge of negligence, and sentenced to a suspension from rank and duty for a period of one year. The friends of Lieut.-Com. Bicknell, who think his previous good record ought to count for something, are endeavoring to secure a mitigation, but it is doubtful if their efforts will be successful.

A Warm Young Lady.

MEMPHIS, May 10.—One of the most extraordinary cases in medical annals is that of Miss Tolleson, a student at a ladies' institution in this city. The young lady was attacked with tonsilitis a few days ago, her temperature rising to 105 and then to 108, her death being momentarily expected. To the utter consternation of the attending physicians her temperature continued to rise to 158 Fahrenheit, breaking the record, and also several thermometers which could not record any higher. Strangest of all is the fact that the young lady is improving and may recover. There is but one parallel case on record, that of a victim of peritonitis at Omaha, whose temperature reached 152 degrees.

Another Lynching.

CUMBERLAND, Md., May 12.—Ashbury Green (colored), who was yesterday sentenced to 21 years imprisonment for assault upon Mrs. M. Folson, was lynched at Centerville shortly after midnight, by a crowd of masked men, who stormed the jail. The community was exasperated at Green's escape from the death penalty, and took the law into its own hands.

Secretary Blaine Ill.

NEW YORK, May 12.—Secretary Blaine, who is ill at the home of his daughter, Mrs. Damrosch Vory, was much better this morning. He passed a comfortable night and ate a hearty breakfast this morning. Mrs. Damrosch said Mr. Blaine would not go to Washington to-day, but would probably remain in town several days.

The Secretary of the Interior.

CHICAGO, May 12.—Dr. C. K. Cole, a leading citizen of Montana, and one of Helena's richest men, received a letter from Washington to-day which stated that Secretary Noble would resign in a couple of months and Thos. H. Carter, of Helena, would be the next Secretary of the Interior.

Pat Purcell's Will.

KINGSTON, Ont., May 12.—The will of the late P. Purcell, M.P. for Glengarry, has been made public. He leaves to the church and charitable institutions $70,000 and $10,000 to the Bishop of Alexandria for the poor. The will disposes of, in all, $700,000.

The President's Trip.

WASHINGTON, May 12.—The Post will to-morrow publish a special from Chicago, saying that George M. Pullman is providing the money to pay the expense of the President's trip which will run up into the thousands.

A LIVELY TOWN.

Robbery in Birmingham, Ala.—Shooting Affair in Church, Etc.

BIRMINGHAM, Ala., May 12.—At 11 o'clock last night C. H. Russell, cashier and chief clerk of the Georgia Pacific Railway, was knocked on the head by burglars and dangerously wounded. He is now unconscious. He was in his office working, with a safe open, when the robbers entered. He was found in a few minutes by the watchman lying there, screaming. The papers and books around him and in the safe were on fire. He was dragged out, but could only say "They knocked me on the head and killed me," when he became unconscious. Tramps had been seen around the building during the night.

L. S. Burgess shot and seriously, if not fatally wounded Samuel G. F. Atwood, at Pleasant Valley Church, on Sunday afternoon. They were both members of the church. About two months ago, Burgess' son insulted Atwood's daughter. Hard feelings have existed between the families, and the matter was brought up for adjustment in the church. When the commission who had the matter in hand had retired, Burgess and Atwood decided to fight. Marion Smith, by interference, received a stray shot through her hand. The shooting occurred in the church, which was filled with people. Burgess escaped.

NANAIMO NEWS.

A Hard Case—In Church Under Compulsion—To Have Standard Time, Etc.

NANAIMO, May 12.—The man who was arrested for using obscene language at the Salvation Army meeting on Sunday night, was brought before the bench yesterday. He is a young man of large stature and appears to be a hard case. He had previously boasted to a friend that if ever the police of Nanaimo attempted to arrest him they would have to get the whole of the citizens to help him. When asked his name by the bench yesterday he refused to give it, saying he did not want his name known. His manner was decidedly insolent and the bench concluded to remand him for one week in order to enable him to come to his senses.

NOT VERY RELIGIOUS.

Another case of a drunken sailor was brought before the court yesterday evening and when asked what he had to say in answer to the charge preferred against him by the constable, the son of Neptune replied he thought it was true. Mr. Planta asked if he had attended divine worship during the Sunday in gaol? The sailor replied, "yes, it is the first time I have been to church for the last sixteen years, and I don't want to go again." The crowd in court burst into laughter at the droll utterence of the man. He was fined $6.25 and allowed to depart.

WILL HAVE STANDARD TIME.

For many years past it has been found difficult for the citizens of Nanaimo to keep the time of day correctly. The time is taken by the New V. C. Co. hooter, but this has been found to vary about 30 seconds to one minute a day, and consequently in a few days it will be a few minutes out. This difficulty is, however, to be overcome, and Mr. M. R. Counter, watchmaker, etc., has undertaken to visit the works of the company once per week and regulate the time-pieces, so that the standard time of Victoria will be in future adopted in this city, and visitors will be put to no inconvenience again.

THE WATER WORKS CO.

The water works company will be called upon this year to lay pipes along a number of the new streets, which will mean a large outlay of capital. The people of this city are not so confident of "well" water as they used to be, and many cases of diphtheria are believed to have been caused by drinking "well" water. The water from the works is brought from the mountains, and although it is a little hard for washing purposes, it is claimed to be excellent for drinking. Many vessels which take water here claim it is far superior to many other ports along the coast.

LITTLE HAPPENINGS.

The fire laddies improved their time in the practice run last evening and not a hitch occurred.

Mayor Hilbert will give a silver cup for the winner of a slow bicycle race.

The citizens are anxious to witness the commencement of building operations for the new hotel.

WRECK OF THE ADELE.

The "Flying Dutchman" Has Made Her Last Trip to Behring Sea.

The steamer Danube, which came in this morning, brought down with her Captain Hanson and the crew of the sealing schooner Adele, which had been wrecked on North Island, a small island to the northwest of Queen Charlotte. The Adele was on her way to the sealing grounds, with a crew of five men and a boy. She had only two sealers with her, intending to get the rest of her hunters at the Indian reserve on North Island. The Adele reached North Island on the morning of the 8th of April, and anchored off the east coast. A strong north-easterly wind was blowing at the time and as the gale increased towards the afternoon, she began to drag her anchor. The gale continued to increase and two more anchors were thrown out but with no avail; the little vessel still continued to drag her anchors and at about three in the afternoon it was evident to all that she must go ashore. A big iron cage was put out to keep her off, but she was carried close in among the reefs by the gale, and the tide, which was one of the highest this spring, floated her so far in that it was impossible to get her off when the tide went out, as the next full tide was fully two feet lower. The Adele was pounded badly on the reef, and when low water came it was found that her keel was broken and that there were two large holes in her bottom, one just forward of the beam and the other aft. At low water the crew stripped her of sails, wire rigging, provisions and other valuables, and took them ashore. Capt. Hanson, taking two Indians with him from the reserve, immediately started for Masset in a canoe, at which place he secured a sail boat and returned to North Island. Then taking on the remainder of the Adele's crew and what had been saved, they journeyed to Fort Simpson and there waited for the Danube to call to bring them back to Victoria. Before leaving North Island the crew, thinking that the vessel was rivetted with copper fastenings, burned her in order to secure them, as they are quite valuable. They were disappointed, however. The Adele was built in Yokohama, was 50 tons register, and as staunch a little craft as ever engaged in sealing. She was often called the "Flying Dutchman," having been on more than one poaching expedition to the rookeries. Her success as a sealer has always been good.

OUR OTTAWA LETTER.

CORBOULD AT SIR JOHN MACDONALD'S FEET.

Anxious to Declare Himself a Tory No Matter What the Province May Think The Opening of Parliament and Attendant Ceremonies.

From Our Own Correspondent.]

OTTAWA, May 3.—To say that the first session of the Seventh Parliament of the Dominion was opened on Thursday last conveys but in a small way the pomp and splendor displayed on the occasion, and the magnificence of the scene in the red chamber of the Senate, where the wives, daughters and relatives of the Senators and Members, in addition to the select few that Mr. Gentleman Usher of the Black Rod may seem disposed to invite, throw themselves back in their armchairs with graceful ease, and in rich array, become a luxurious spectacle, in their low-necked apparel and bare arms, for a glaring crowd, densely packed in the galleries, to feast their eyes upon. This is the most important part of the show, and those who most contribute to its success are fully aware of the conspicuous position they occupy, and consequently endeavor to make themselves as effective and prominent as possible. Year after year the opening partakes of the same old formalities—the booming of cannon on Nepean point, firing the salute, which signifies the departure of the vice-regal carriage from Government House, accompanied by an escort from the Princess Louise Dragoon Guards, the lusty cheers of the crowd along the route, the guard of honor from the Governor-General's Foot Guards, who receive the representative of Her Majesty at the main entrance to the Parliament buildings, the summoning of the faithful Commons to the Senate by Mr. Gentleman Usher of the Black Rod, who makes his three great bows in the popular chamber before doing so, and finally the return of the member to the Commons chamber, where some formal matters are gone through, and then the House is in readiness to proceed with the debate on the address in reply to the speech from the Throne on the following day.

THE SPEAKERSHIP.

Although the parliament was not formally opened until Thursday, the members thereof were summoned on the previous day, Wednesday, for the purpose of electing a speaker to preside over their deliberations. On that date a larger representation of members was present than has been noticed at the commencement of any parliament since confederation. This was due no doubt to the urgent, "whip" sent out by the Government for all their followers to be in their places, as a vote on the speakership was possible. The British Columbia members, although a day late, owing to the forty hours they lost through a snow slide in the Rockies, ten hours of which they made up through speedy driving, arrived here in good time to be sworn in and in their seats during the election of the Speaker. Mr. Peter White will make an acceptable Speaker, perhaps the best selection that the Government could make.

DEBATE ON THE ADDRESS.

The political campaign which closed some time ago in the country, and which, as I have already said, will be of a memorable character, was opened again in the House with the discussion on the address. Indeed, the circumstances connected with the dissolution and the iniquitous tactics adopted by the Government to procure a majority of members against a popular vote are all such that demands to be thoroughly ventilated and handed down to history through the medium of the Hansard. Mr. Hazen, who moved the adoption of the address is both a pleasing and effective speaker, but, for a young member he made a great mistake in departing from the lines laid down in the speech from the throne to make an attack on Sir Richard Cartwright. To be actuated by a little modesty is one of the greatest essentials of a young member towards attaining success. However, Mr. Hazen acquitted himself well and will no doubt yet be heard from in the political arena. It was not so much for what he said but for the manner in which he said it that he was able from the outset to obtain the ears of the House and hold it throughout.

BRITISH COLUMBIA HEARD FROM.

Mr. Corbould, the representative of New Westminster, occupies the peculiar position of being twice elected to Parliament, before he was able to occupy a seat therein. This was owing to the unexpected dissolution. Both for this circumstance and the fact that he comes from a province which gives a slavish support to the administration it was a fitting thing to ask Mr. Corbould to second the address. There was probably still another reason. It was whispered here sometime ago that the member for New Westminster was possessed of some streaks of independence, as far as politics were concerned, and therefore to make him solid with the other five from the Province for the Government, it was necessary to pay him some little attention. It has been always thus with "Old To-Morrow;" but it is not highly creditable for members from the Pacific coast that the Premier seems to imagine that the best way to obtain their support is through their own individuality rather than through their Province. I have time and again pointed out to the representatives of the Province by the peaceful Pacific that they deprive the Province of that justice which the Government and Parliament owes it, when compared with what the maritime and other provinces get, through the humiliating spectacle they present in prostrating themselves, in a political sense of course, at the feet of Sir John Macdonald. Past experience has shown that they can obtain nothing from such an attitude for the betterment of their own Province, and no one would be unjust enough to say that they were looking for their own self-interest. Something ought to be learned from the experience of Mr. Shakespeare, Mr. Baker, Mr. Prior and Mr. Reid. Tunnel schemes, railway subsidies, bonuses of all kinds and pledges of every description are necessary to secure political support down by the sea, but a pat on the shoulders of the members of British Columbia, and a little kind attention from the old man is all that is necessary to obtain their votes.

A SPECIMEN BRICK.

Lest it may be imagined that I do an injustice to the new member from New Westminster I will quote his own words to show how eagerly he joins his colleagues in doing homage to the administration of the day. Mr. Corbould, in concluding his speech, is reported in Hansard as follows: "It has been said by the Opposition press that the Government is losing power in this country. I think that remark does not apply to the Province of British Columbia, at any rate, for out of the six representatives returned by that Province to this Honorable House, two were returned by acclamation, the opponents of three lost their deposits, and the sixth was opposed by a Conservative. I think that British Columbia did her duty, and she will be prepared to do it again when the occasion arises." This statement brought cheers from the Government benches, and British Columbia may consider itself richly rewarded for the devotion it has shown the Government. The reply of Mr. Laurier was one of the best, if not actually the best speech he ever delivered in the House, and to it and the other speeches which followed I will refer to in my next.

SLABTOWN.

Two Pictures.

BEFORE!

A gentleman of middle age, occupying a government position in the City of Ottawa, and who is well-known in social circles, came through a serious illness some months ago. Before using the great remedy which restored him, (Paine's Celery Compound), he was very nervous and extremely weak; his appetite had failed so much, that his wife became very anxious. Brandy and water for some time seemed to sustain life, and altogether, his condition was serious and doubtful. Nervous debility had reduced him to a skeleton. Two of his friends urged strongly the use of Paine's Celery Compound, which his dear wife consented to try.

AFTER!

After using the Compound for a few days, happy results were observed. There were evident signs of increasing strength and appetite, and less prostration. In two weeks the nervous symptoms had abated, and the patient was able to converse freely and without fatigue. In seven weeks after the continued use of Paine's Celery Compound, the gentleman was able to be out and visit his office. To-day he is one of the strongest and most robust men of the capital, and takes pleasure in speaking of the great Compound that restored him to health and life.

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B.B.B.

April showers may be the forerunner of May flowers, and they are also certain to bring with them cold in the head, which if neglected, develops into catarrh, perhaps into consumption and death. Nasal Balm never fails to give instant relief, and will permanently cure the worst case of catarrh if faithfully used. Sold by all dealers.

OCCIDENTAL HOTEL.

Berryman & Andrews

having purchased the business of the Occidental Hotel, corner Wharf and Johnson streets, from Mr. Wm. Jensen, beg to inform the public that they will endeavor to retain and enhance the high reputation the house has always held. The OCCIDENTAL will be run on thoroughly good principles, excellent accommodation being furnished to guests, and the table supplied with everything substantial and appetizing. None but the finest Wines, Liquors and Cigars will be kept at the bar, including the imported Burton Ale, for which the Occidental is now famous.

Soliciting a continuance of the patronage extended to the former proprietors, we respectfully remain,

INTERIOR INTELLIGENCE.

...ws from Inland Points Relative to Min'ng, Railroad'ng, and General Matters.

...om the Kootenay Star.]

The contractors on the C. & K. Railway expect to have the line completed to the C.P.R. dock at Nelson to-day.

Dr. Campbell went to Tacoma via the Dalles and Spokane, to make arrangements to secure coke for the Revelstoke smelter.

It is no wonder that Judge Tunstall wishes to be removed from here to Kamloops, when the Government cannot see its way clear to build a decent Government office and court house here.

The steamer Kootenai, of the C.&K. R.N.Co., is ready for work again, and on Monday will make her first trip of the season, taking passenger coaches and a locomotive to Sproat for the Columbia & Kootenay Railway.

Mr. Toppen has sold out his interest in the Le Roi at Trail Creek to Spokane parties, with the understanding that they will continue the development of the mine. He will utilise the money earned for the Le Roi, in developing his other properties at Trail Creek.

The Revelstoke Smelting syndicate are preparing to purchase all ores of Trail Creek camp, and in fact all ores mined in the district, and Dr. Campbell and Mr. Boyle were at the mines last week to make arrangements with the mine owners for the output of their properties.

On the 28th ult. a fatal accident occurred at Bear creek. A party of three men were precipitated into the creek by the sinking of a raft overloaded with stone. Charles Ladouceur was drowned, but the others were rescued with great difficulty. Ladouceur came from near Quebec, and leaves a wife and family to mourn his untimely end. The body has not been recovered.

Mr. J. Bowron, now Government agent at Barkerville, Cariboo district, will in all probability succeed Judge Spinkall here. Mr. Bowron has proved himself a very capable officer, and it is doubtful if the Government could find a more competent man to look after the interests of West Kootenay. He has had long experience in mining matters, which will serve him to good purpose in his new field of labor.

Andy Hunker, Andy Parkes and Dan McDonald, of the Consolation Mining Co., have evidently more faith in the resources of the Big Bend than the Government or Mr. Kellie. To-day they left town to put in a week or so in improving the trail from here to French Creek. George Laforme, Ed. Pinnet and John Neilson will go up with a pack train and provisions as soon as the road is passable. French Creek yielded a crop of $2000 during the past winter, and the French Creek boys are satisfied there is much more of such consolation there for them.

The body of Dan Reed, who was drowned in the Kootenay rapids on March 15, was found in the river about a quarter of a mile below the boundary in the big eddy near the mouth of Pend D'Oreille river, by a Colville Indian. The Indian notified a J. P. at the Dalles, who held an inquest over the body, and had it buried near where it was found. The face and head of the drowned man were cut and bruised by the rock, and was only recognized by the clothing he wore. Reed's brother, who lives in Memphis, Tennessee, was sent word of the finding of the body.

From the Sentinel.

Judge Tunstall returned to town on Tuesday, having visited the Lillis family, who are suffering from the effects of the recent accident at Grand Prairie. Reports all doing well, and out of danger.

Tom. Bushy was yesterday sentenced to three months' imprisonment for having supplied whiskey to two Indians, named respectively Siax and Prosper. The Indians were those who created the disturbance in the mining camp of Mrs. McDonald and Redpath.

Kamloops Lodge, No. 15, I.O.G.T., installed officers as follows on Thursday evening: Chief templar, Brother Jas. Savage; vice-templar, Sister ...; secretary, Bro. C. Wain; treasurer, Sis. McConnell; past chief templar, Bro. A. E. Cooke; chaplain, Rev. J. A. Lee, B. A.; marshal, Bro. Joseph Ross; deputy marshal, Sis. ...; guard, Bro. John Cooney; sentinel, Bro. S. Hambly; supt. juvenile templars, Bro. Geo. Strevens.

Mr. George McDonald, of the North Thompson mines, was in town this week, and gives a most encouraging account of his claim. He says the indications are most encouraging, and that prospecting is being carried on to a considerable extent and with success. Mr. McDonald is confident that within the next few months, the North Thompson will establish itself as one of the most important mining districts of British Columbia.

THE CRY OF MILLIONS

OH, MY BACK!

STOP IT NOW,

SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from a very violent attack that almost prostrated me in such a manner that I was bent over. When I sat down it was almost impossible for me to get up alone, or to put on my clothes, when kind Providence sent Dr. Henley, with the OREGON KIDNEY TEA, to my hotel. I immediately commenced using the tea. It had an almost miraculous effect, and to the astonishment of all the guests at the hotel, in a few days, I am happy to state, that I was a new man. I will recommend the tea to all afflicted as I have been.

WHITE ROCK, B. C.

This Townsite is situated on Semiahmoo Bay, and is the only deep water seaport between the International Bounday Line and Vancouver, B.C. It will probably be the Mainland starting-point of the Victoria, Saanich & New Westminster Railway. It is now the outlet for the finest agricultural district in British Columbia.

The C.P.R. has made a survey of a line from Vancouver direct to this point. The Royal City Planing Mills Company has built a substantial wharf here, and has established a lumber yard, which supplies the farmers of this district. A handsome Hotel has been erected and building is going on rapidly. Several influential and far-sighted corporations have acquired large tracts of land surrounding this Townsite.

ONLY 14 WATER FRONT LOTS LEFT.

McKINLEYISM AND SPAIN.

While we are unable to approve of protection, we are bound to admit that there is common sense in the McKinley bill. We refer to the reciprocity clause. Under this clause reciprocal trade relations have been effected with Brazil, and now we learn that a similar arrangement has been affected with Spain. The treaty with Spain, as will be seen in another column, provides for the free entry of sugar, cocoa, and skins for the Spanish West Indies, and in exchange the West Indies will receive American coal, ice, wood, boots, shoes, fresh and salted meats and fish, either free or under a small duty. Butter and drippings are entirely exempted. The duty on flour has been reduced, but not until 1892 will the United States reap material advantage for dry-goods and machinery, owing to the favored nation treaties to which at present Spain is a party. Remarking the character of the articles which the United States and Spain propose to exchange, we find that any of them are produced in Canada, and remarking further that Sir CHARLES TUPPER has tried to effect a similar convention with Spain, and Mr. FOSTER with the British West Indies, we marvel at the success of the Americans. It is true that the United States have a prime advantage over Canada. They have a market thirteen times as large. Naturally Spain cannot afford to ignore any reasonable conditions of trade that the United States may see fit to prescribe. But Mr. FOSTER is hampered with differential duties the parents of which are National Policy and Direct Taxation. In no transaction has he been permitted to shelve these paternities. These "old folks," so to speak, must be maintained in their place in Canadian politics. Thus, moved on the one hand by consideration for these "old people," and on the other having but a moderately sized market to offer, Canada goes a begging for reciprocity. There is one of two things that Canada's managers of affairs must do, and that is, they must either consistently practice National Policy or abandon it. It is not to be presumed, however, that they will do anything of the kind. Whatever may be their private convictions as to fiscal policies and direct taxation, they are lacking the moral courage to confront either. Afraid of the consequences of National Policy pure and simple, afraid of the consequences which would eventuate of the complete abandonment of it, they prefer to fluctuate between occasional remissions of the tariff tax and bogus missions to Washington. These remissions of the tariff here and there, together with bogus reciprocity commissions, befog the people, keep them divided, and as always is the case in such circumstances, make it tolerably safe for the party in power to appeal to the ballot box at certain political crises. "Old To-Morrow" is a term that fits Sir JOHN exactly. He is as big a humbug in his way as was BARNUM. But the time cannot be far distant when the administration must either fish or cut bait. The people noticing the flexibility of McKinleyism and admonished by their necessities will demand a specific trade policy. They will insist that in negotiating reciprocity treaties, differential duties do not enter in, or, they will demand free trade and take the chances of direct taxation. The latter certainly cannot be worse than industrial inertia.

CONCERNING CHINESE WIDOWS.

If she is not too old, and is fairly good looking, a widow in this country is an interesting creature, and the hearts of men go out unto her. In China, however, it is different. Chinese public opinion is not only inimical to the remarriage of widows, but distinctly regards them superfluous as social appendages in whatsoever capacity. In brief, the exigencies of domestic and social life in China require that the relict of a deceased Ah Yum should follow him as expeditiously as possible. Chinese parsimony has protested against the maintenance of a deceased brother's wife, and as the "resultant of these two forces," says a writer on the subject, "is all over China the suicide of widows," and in the Province of Fuhkien in particular. It is indubitable that popular sentiment in China is in favor of suicide. The reason is not, as some writers allege, that wives refuse to survive their husbands, but because the Chinese, being an eminently practical people, encourage the suicide of widows simply because they are an encumbrance. The Chinese, of course, do not admit this. Of all nations the Chinese are the most hypocritical. They profess to ascribe their actions to high and noble motives, and hence, when by acts of petty tyranny a woman's brothers in-law drive her to suicide, the deed is represented as a voluntary one on her part, and is much lauded as proof of conjugal affection. The ordinary form of suicide is that of opium swallowing, an explanatory note being left on the person of the deceased for the exculpation of her relatives. In the districts around Foo Choo, however, these suicides are conducted so publicly as to justify the description of them as a "Chinese suttee."

EDITORIAL NOTES.

The Government hopes to be able to publish the census returns by July 1st

The Telegram is angry because the TIMES wanted to know what the Mud Lark was doing at Vancouver, and explains that the dredger was engaged in clearing up "stuff" that had been held in "solution by the water" This is news. A dredger used to clean up "stuff" held in "solution by the water!" It must have been a dreadfully thick "solution" that a dredger should be required to remove it. A "solution" compact enough to require a dredger to remove would be somewhat severe on a ship's bottom. The TIMES has no desire to belittle the harbor of Vancouver, but it would have the Telegram understand that a harbor that holds "stuff" in "solution" of a consistency so thick that a steamer would be unable to force its way through it, is a very thick solution indeed.

S. Myers & Sons owned, at the time of the elections, a woolen mill in St. Mary's, Ont., which had cost them $20,000. The other day they sold it for $8000—forty cents on the dollar. The firm has gone to Tiffin, Ohio, where it has bought a woolen mill in order to get into the larger market.

As, according to the Vancouver Telegram "there can be nothing in Conservative principles forbidding a nation to engage in foreign trade," there can be nothing, we suppose, to prevent a British subject from transferring his trade or business to a foreign country. At all events, S. MEYERS & SONS have done so at a loss of sixty cents on the dollar, and we take it that a movement of this kind speaks louder against National Policy than does the loudest Liberal editorial. It is one of those movements for which there is no answer in point of reconciling it with the absurd Tory claim that Canadian manufactures would be swamped by American competition. If the Canadian can compete with the American on his own ground, the circumstance of reciprocity would not affect the manufacturing status of Canada in the least. In fact it is reasonable to infer that the best thing that could happen Canadian manufacturers would be the razing of the tariff wall which circumscribes their market to a narrow environment.

The Ottawa Free Press comments on the finance minister's speech after the following fashion:

"The finance minister asks how we are going to provide a revenue if the products of the United States are to be admitted into Canada free. But how does he propose to get revenue if his policy is carried out? He offered to wipe out the duty on sugar in return for advantages in the markets of the British West Indies, and he proposes to abolish the duties on natural products to obtain access for our producers to the markets of the United States. These propositions involve a sacrifice of over $6,000,000 a year of revenue. How is Mr. FOSTER going to replace that amount? * * * As to discrimination against the mother country, Mr. FOSTER proposes to discriminate against British trade to a much greater extent than the Reformers do. He now imposes an average rate of 23 per cent. customs duty upon imports from Great Britain, while the average rate levied upon imports from the United States is only 14 per cent. That is straight discrimination against England. * * * * * And where is the revenue to come from if the Tory policy is made a success? Mr. Foster proposes to abolish the duties upon natural products and to shut foreign manufactured goods out of country by means of high custom duties. If his scheme succeeds he will receive no customs revenues at all. Mr. Foster insists that unrestricted reciprocity means annexation, but he does not say his own party will continue to oppose that policy. The finance minister says Mr. Blake is of the opinion that unrestricted reciprocity must ultimately lead to annexation. And surely Mr. Blake's opinion is as valuable upon one point as upon the other. * * * * Reformers are told that they should have faith in Canadian institutions, and in the utterances of Canadian cabinet ministers. But example is more powerful than precept. How comes it that Mr. Foster prefers the Chicago courts to our own Senate as a tribunal for the adjustment of matrimonial difficulties? But what are we to think of the following in which Sir John warns people not to credit the statements of cabinet ministers. As to accepting the statements of Tory cabinet ministers Sir John Macdonald warned the House of Commons on Friday not to accept any statements made by his colleagues on behalf of the Government. He stated that Mr. Chapleau's pledge that there would be no dissolution until the lists were revised did not bind the ministry. Under such circumstances Mr. Foster cannot reasonably expect Reformers to accept without question the statements or promises of "inferior" cabinet ministers.

BRITISH ISRAEL.

TO THE EDITOR:—At a recent lecture in the Methodist church, we understood the Rev. Mr. Watson to state that to entertain the idea of the British nation being identified with the ten lost tribes of Israel, was silly. Seeing there are a large number of intelligent people who entertain this idea, it would be instructive to have these remarks backed with some argument, for some of our most learned men in Europe and America also entertain this idea; besides, the largest church congregation in the world, taking an average of fifty two weeks in the year, sit under an expounder of the gospel on this line. Seeing this, we would ask as a favor that the reverend gentleman would produce some substantial evidence against the silly idea. MECHANIC.

TEACHERS' CERTIFICATES.

TO THE EDITOR.—The notice calling upon candidates for teacher's certificates to make application and forward their testimonials of character is now published. Will you urge upon the Government the necessity for immediately appointing the board of examiners, since under the new School Act, candidates are completely at the mercy of the board. Although they should take perfect marks in each subject, yet they run two other chances of defeat. First, for unsatisfactory testimonial of moral character. Second, for not being able to satisfy the board that they are fit and proper persons to teach. For instance, if a majority of the board consider that a candidate is not a proper person to teach because he is not of the right political stripe, off goes his head; or because he is an infidel, off goes his head; or because he has exposed the Education Department, off goes his head; and the beauty of it is, that no court or judge can interfere or compel the board to state the reason why it did not consider a candidate a fit and proper person to teach. Will you, therefore, urge upon the Government to appoint the board at once so that intending candidates may make friends with the board, so as not to be put to the trouble and expense of studying hard to pass the examination, and yet get no certificate on either of those other grounds.

Vital Statistics of Ontario.

London, (Ont.) Free Press: The annual report of the registration of births, marriages and deaths in the Province of Ontario for the year ending December 31, 1889, shows that during the year 1889 there were registered 48,538 births, 14,880 marriages and 23,329 deaths. Compared with the registrations made during 1888, the births show an increase of 1585 the marriages an increase of 329 and the deaths a decrease of 405. The male births in the Province numbered 24,737, the females 23,801, an excess of 936 males, showing a proportion of 103.5 males to 100 females. There was a small increase in the number of twin births registered. Three cases of triplets, the same number as in 1888, were registered, one each in the counties of Haldimand, Peterborough and York respectively. The report says: "Of the 48,639 children whose births were registered during the year 1889, 47,581, or 98 per cent., were legitimate, and 958, or 2 per cent., illegitimate. In 1885 there were 46,953 births registered. Of these 46,035, or 98.7 per cent., were legitimate, and 918, or 1.3 per cent., illegitimate, showing a large increase in the number of births registered during 1889." The marriages of the four principal denominations were: Methodists, 9920; Presbyterians, 6022; Episcopalians, 5041, and Roman Catholics, 4316. Little change took place in the months chosen for marrying. October, December and January are still the favorite months, especially December, which heads the list with 1753 weddings, nearly 12 per cent of the whole number celebrated during the year. Comparatively few marriages took place in August, only 913, or 6 per cent. of the whole number returned during the year.

Callie's Christmas.

Callie's Christmas having proved such a decided success, Mrs. Bridges and Mrs. F. Sehl have been asked to repeat it in aid of the Jubilee and St. Joseph's hospitals. It is to be hoped they will have a crowded house again at the Philharmonic Hall on Tuesday evening next, the 12th inst., when the admission will be 25c.

Dominion Day.

Young Men's Institute, No. 85, held its regular meeting last evening and appointed a committee to make arrangements for a picnic on Dominion Day. If satisfactory terms can be made with the railway company a joint basket picnic will be held at Quamichan. The Nanaimo Institute and the Victoria Institute will meet at Quamichan and a pleasant day will be spent in that place by the residents of both cities. Full particulars of the proposed excursion will be given in a few days.

Their Record Broken.

Queer how judiciously is the news selected to go over the C.P.R. telegraph wires. A dispatch in the Sound papers, dated May 10, gives particulars of a C.P.R. accident at Sudbury, Ont., on Friday, where the train went over a burnt trestle, and one man at least was killed. Nothing was said about the matter in the Victoria news dispatches, but the record of the C.P.R., that it never killed a passenger, is unfortunately now broken.

Tourist Spoons and Opera Glasses.

Mr. A. A. Clayton, of the Diamond Palace, Government street, has now completed and ready for inspection, a large stock of tourist spoons, suitable for souvenirs of Victoria. In the bowls of the spoons are etched scenes of the Gorge, Dunsmuir Castle, Mount Baker, and other pictures of Victoria scenery. He has also just received a consignment of beautiful opera glasses, in pearl and Russia leather, which are pronounced the finest ever imported to this city.

Vancouver Waterworks.

Mr. Justice Crease has appointed Judge Drake as third arbitrator in the Vancouver waterworks matter. The commission consists of Judge Drake, of the Supreme Court of British Columbia; Mr. J. M. Browning, Land Commissioner of the C.P.R., and Mr. E. G. Tilton, civil engineer, late chief engineer of the C.P.R. in British Columbia, and now of Victoria. The session of the board of arbitrators will be held in Vancouver. Their labors will begin most probably next week.

Time to Interfere.

It is understood that some enterprising people intend to daub the rocks, trees and other points of views on the Victoria Arm with unsightly advertisements for the Queen's birthday celebration. If this is allowed to proceed, with the indecent language that is complained of, the charm of this beautiful resort will soon be lost to its chief admirers, the ladies of Victoria. Private property owners are going to make a strenuous objection to this mode of advertising, which they consider a sacrilege of the worst type.

Excursion on 24th to Port Angeles.

The popular and comfortable steamer Yosemite, having been engaged for an excursion, will leave Victoria on the 24th May, at 9 a.m., from C.P.N. Co.'s wharf, for Port Angeles, returning will leave there at 5 p.m. This steamer has just received a complete re-fit and overhauling, and is in a gorgeous condition. A special band will be chartered for the occasion, and no expense spared to make the trip a success. This excursion will certainly be a feature in the programme of the approaching festivities of the 24th May celebration and within easy reach of all, as the fare for the round trip is only $2.00.

Annual Meeting.

The annual meeting of the shareholders of the Nanaimo Gas Company was held Saturday afternoon. A highly satisfactory report was presented, showing a dividend of 7 per cent., and it was resolved to double the capacity of the works at once. Votes of thanks were passed to the management and the following were re-elected directors: Messrs. A. R. Green, Dr. Milne, M. P. P., C. D. Rand, John M. Oliver, and Morgan Harris. At the meeting of the directors the following officers were chosen: President, A. A. Goeen; vice-president, G. L. Milne, M. D., M. P. P.; secretary and treasurer, W. K. Leighton.

A New Firm.

H. M. Cunningham, of Cunningham Bros., New Westminster, arrived down last night. Cunningham Bros., will open out a large hardware business at the corner of Johnson and Government streets, as soon as the new block, to be erected by Messrs. Dalby and Wilson, is completed, which will be in the course of a few months. At present the firm will be found at Janion's building, Store street. The new block will have a frontage of 120 feet on Government street and possibly the same on Johnson street, and will be four storeys high. Cunningham Bros., will occupy commodious quarters on the first floor, the remainder possibly being utilized for a hotel. They will make Victoria their headquarters.

The Great Reaper's Latest.

A gap was made in the family of Mr. McConnell yesterday, when Death called and took from him an affectionate and good daughter in the person of Miss Aggie McConnell. The deceased young lady was suffering from an attack of inflammatory rheumatism, which was not considered fatal at first; but it got to the heart, and all hope was consequently abandoned. She was about sixteen years, and was the very light of her poor father's life. She passed away about one o'clock yesterday afternoon very quietly and peacefully.

The funeral will take place from her parents' residence, Third street, to-morrow at half-past two o'clock to the Gorge Road church.

Independent Order of Foresters.

At the last meeting of the Independent Order of Foresters in this city, some new members were initiated. When the good of the order came up, Mr. Lawson of Toronto, and Jas. H. Falconer, of Court St. James, Toronto, were introduced to the court. Mr. Falconer was called upon for a speech, which he gave, and was received with all the honors belonging to the ritual of that fraternal body. Mr. Falconer stands high in Forestry in Toronto, and as he has started into the vinegar business in this city, will withdraw from his court in Toronto, and affiliate with Court Cariboo in Victoria. The Independent Order of Forestry, since its inception in this city, has grown very rapidly, and includes some of the leading citizens.

"Do Good Unto Others."

Mr. Henry Payot, a wholesale stationer of San Francisco, and probably the largest house in the trade in the United States, came with his daughter from the east last week in company with several passengers going by the Empress of India. He was on his way home. At the C.P.R. offices in Vancouver, several of the passengers expressed a desire to run over to Victoria and board the Empress on her way out from here. They enquired if this was possible, but were assured in Mr. Payot's hearing that they could not do anything of the kind, it would be impossible. They were much disappointed, but Mr. Payot was very indignant when he arrived here and in conversation with a merchant found the real facts of the case.

Big Property Sale.

Although a big sum of money changed hands to-day at Mr. Joshua Davies' real estate property sale, the whole of the property offered was not sold. Lot 11 on Bastion street was knocked down to Mr. Robert Ward for $5100, and lot 6, block 74, on Fort street, went to Mr. J. Douglas Dick for $10,900. Lot 22, of five acre block 9, on Frederick street, went to Mr. G. B. Ordano for $3400; lot 722, block 21, to Mr. J. P. Matthews, for $5000. Newcastle lots 19 and 20, were purchased by Mr. W. N. Shaw, of Nanaimo, for $550 each; and Mr. Lilley bought the property on Osborn bay, Cormorant district for $2300.

Previous to the opening of the sale the Boscowitz residence and property was sold to Mr. Simon Leiser for $12,000, making the entire amount of money changing hands in Mr. Davies' rooms to-day amount to $39,800.

Methodist District Meeting.

The district meeting of the Methodist churches to discuss matters pertaining to the locality, opened this morning, Rev. Joseph Hall, chairman of the district, presiding. Rev. Mr. Baer was elected secretary. The forenoon session was devoted to the clergy who discussed matters clerical. In the afternoon the various lay delegates were present and the discussion tended towards general affairs. The various financial statements, church membership and other reports were also submitted and read.

The reports in question show four new churches, at an aggregate cost of $80,000. The total membership was 823, an increase over last year of 132. The sum of $1130 was raised for missionary purposes, also an increase over last year. The aggregate amount raised in the district was $28,000; the district comprising the work in Vancouver Island only. The Sabbath school report shows 139 teachers and 1279 scholars.

Cut His Throat.

John Dodd, a young fellow of about 27, engaged as a waiter at the Russ House, was found in bed with his throat badly, but not dangerously, cut to-day about noon. Supposition points to his having done it himself, as he has been strongly addicted to drink lately. A piece of paper was found in the room, on which he had written that he went to bed drunk and woke up with his throat cut. He was able to move around, but not to speak, and has been taken to the Jubilee Hospital for treatment.

FROM NORTHERN PORTS.

Steamer Danube Strikes an Unknown Rock at Skidegate Inlet—Escapes Damages.

Steamship Danube arrived from the north this morning at four o'clock, and made fast at the outer wharf, where she will discharge her mainland cargo before coming into the inner harbor. She experienced bad weather all the way from Irving to Skidegate, and at Skidegate Inlet struck a rock which is not marked on the chart. This was on May the 4th at 4 o'clock in the afternoon, but she got off at 9:15 o'clock the same evening, and was beached the following morning in order to ascertain what damage was done. It was found that she escaped very well, with her keel bent a little at the fore part.

The Danube left Skidegate on the 7th for Fort Simpson, where she took on board the shipwrecked crew of the schooner Adele.

The canneries have nearly all their tins ready for the spring catch, which they expect will be good this season.

A TRIP TO DUNCAN'S STATION.

Morning Ride on the Esquimalt & Nanaimo Railway—Sylvan Scenery all the way.

Your correspondent left Victoria at 8 o'clock on Sunday morning for a short visit to Duncan's Station. The smoking car was littered with fishing lines and baskets owned by the devotees of the late Izaak Walton. During the journey to Shawnigan Lake the passengers had a look at the derailed car and viewed the spot on the Saanich Arm where young Bissett lost his life. A deer was noticed in the woods. The freshness of everything made the trip an enjoyable one. At Shawnigan Lake a rush was made for boats, but several fishermen contented themselves with fishing in neighboring streams. After pulling out from Shawnigan, the train passed several stations, and arrived at Quamichan at 10 o'clock. The down train met at this place with the train from Victoria, and a stop was made for a short time. Quamichan, or Duncan's station, is one of the prettiest spots on the line, and a few passengers remained there to spend the day. The growing town has two fine hotels, one the Quamichan, owned by James Daley, a well-known citizen of Victoria, the other is managed by Messrs. Dickey & Lee. Mr. Daley paid $12,000 for the Quamichan Hotel and no better place can be found on Vancouver Island for a few days rest from the worry of city life. Mrs. Daley attends to the ladies and furnishes good rooms and splendid meals. The same can be said of the other hotel which is located on an eminence near the station. A walk of ten minutes brought into view the Cowichan river which is a grand site at this season of the year. The remains of the broken bridge can be seen from the temporary bridge, while large trees and logs lie on the sand bars and banks of the river. The green trees, wild flowers and Indian ranches along the banks make up a pretty view which would well repay a visit to the summer resort. On the way back to Duncan's your correspondent passed the Agricultural Hall, a large building standing in the middle of a cleared enclosure. Near the depot I noticed thirty residences, and among them were several neat cottages. Among the business places were two general stores, two blacksmith shops, a sash and door factory, pump making shop, livery stable, butcher shop, harness shop, shoemaker shop and a saw mill. Notices calling for tenders for a new Methodist Church were posted up, a school building will be erected shortly, and an iron bridge will span the river. On Saturday last the Indian band from the Catholic Mission played several selections, and were much appreciated by everyone in the locality.

County Court will be held at Duncan's on the 8th inst.

A notice on the depot advertising a yoke of oxen for sale attracted much attention. It would be advisable for butchers of Victoria to beware of these oxen. The notice stated that the oxen were 88 years old, very gentle and well broke.

After spending a day in the town we boarded the down train at 5 o'clock and started for Victoria. On arriving at Shawnigan Lake a fishy smell was noticeable. About 50 anglers with well-filled baskets stood ready to leave for home and were soon seated in the smoking car, relating their oft told yarns of the number they caught during the past 10 years. The car was filled with fish. The air was redolent of fish, and the stories were fishy in the extreme. At 7 o'clock the train pulled in to the Victoria station and the day's outing was over. Should any of your readers wish for a pleasant time they should take a ride to Duncan's Station where a few days can be spent in a really health-giving locality.

THE NEGRO'S SONG.

It Breathes a Sadness Induced by the Wrongs His Race Has Borne.

No Other Music Can Match It in Melancholy Sweetness, and It Was the Only Thing That Slavery Left Him—Reasons for Its Excellence.

Ninety years ago in a little grass-matted hut beside the Niger river a white traveler lay tossing in the agonies of a tropical fever. Sometimes in his delirium he murmured broken fragments of Scottish songs—sometimes, as the pangs of the fever momentarily abated, the sound of the bagpipes seemed to ring in his ears, and, roused to semi-consciousness by the sweet illusion, the sick man would rise from his couch of reeds and cry: "Play the 'Blue Bells of Scotland,' piper—play the 'Blue Bells.'"

Then a woman, dark of face, and clad only in a blue cotton skirt, entered the hut. Sitting down beside the invalid she began to softly croon a song of wondrous melody. In the music of that African song pathos, sympathy and anxiety seemed to blend with hope and confidence, while the sound, ever soft and low, touched gently the ears of the sufferer, and soothed him to rest and sleep, from which he awoke, weak, but free from the fever's grasp.

That traveler, says the Chicago Globe, was Mungo Park. In his memoirs he says: "I am firmly convinced that the soft music of that negro woman's song saved my life and gave me new strength for my undertaking."

How or when the negro acquired his love of music history cannot tell. Herodotus tells of the "sounding bows" of the Ethiopians—black bows whose strings gave out a melody sweeter than the notes of lyre or cithern, and which were in great demand at festivals. In Roman times the Mauritanian blacks were noted for their musical skill, and the chroniclers of the middle ages often speak of the sable musicians who delighted the lordly Saracens with their talent. In the strange, mysterious land of Africa the negro has little to do and abundance wherewith to support life. Doubtless, in the earlier ages, he lounged about his hut day after day, until at last from sheer ennui, he turned to music as a means of employing his idle time. As the centuries rolled on the black became more and more skilled in musical art until, when his race first began to see the shores of America, he was already a vocal and instrumental genius of high merit.

But it was among the negro slaves that the "divine art" reached its perfection. The poor African, torn from his native land, and sent from ease and idleness to hard work, under an exacting master, could not express his thoughts in the ordinary language of common conversation, but all the pathos, all the sorrow of his misfortunes and his surroundings, acting upon his sensitive and romantic nature, combined to produce a type of song which the world has never seen surpassed. Perhaps a wife or child would be sold into servitude, far away from the poor slave who composed the song; perhaps a kindly master would pass beyond death's river; perhaps the slave himself would be sent into a distant state, never again to see the home which had become dear to him by countless ties, but, whatever the cause, the negro songs remain matchless in their melancholy sweetness, marvelous in their patient resignation to fate and "massa's" will.

But there were gleams of light and happiness in the life of the slave. In the evening, when the work was over, the darkies would assemble in the "quarters" and, while the 'possum and the hoe cake, the sweet potatoes and the corn were being cooked to perfection by the skillful "aunties," the fiddle and the banjo sounded merrily and the uproarious chorus mingled with the shuffle of the dancing feet.

From these festive occasions sprang the idea of negro minstrelsy, which has since become so distorted that not one person in fifty north of Mason and Dixon's line has any idea of real plantation music or of the real depth and richness of those unique and matchless melodies. Since the war the negro has been free, but he has not forgotten his music, and he, and his descendants, even those in whose veins lingers hardly a drop of negro blood, still sing the songs that once delighted "young massa" and rose sadly around "old massa's" grave. But even among the negroes there was a great variety of music, tinged by locality, of course, and often by the ancestral tribe of the negro. Thus, in New Orleans the blacks had a list of songs much different from the music of Virginia or the Carolinas. The songs of Carolina dwelt upon cotton lands and rice fields; those of Louisiana less upon material surroundings and more upon sentiment and love.

Much French blood ran in the veins of these people and their music showed the combination of races. Even now, in Louisiana, the creole women—women of whom a southerner once said that they were the most beautiful in the world—the quadroons and octoroons, chant their songs and lullabies in both French and English, and the mellow accent of the negro tongue yet clings to every melody, in either language.

The south may change as the years pass by; the negro may be blended with the white, and lost from view in the millions who will yet people that lovely southern land, but the songs of slavery, the wondrous expressions of all the music of a hapless race, will live forever and be sung in future ages by men and women who can claim no trace of African lineage, and who will remember nothing of the sable composers, save the song.

Not to Be Bluffed.

A merchant in Syracuse offered a young woman twenty yards of silk for a dress if she would saw half a cord of wood in front of his store. She borrowed a saw, spit on her hands, and went through that woodpile in just three hours, and the admiring crowd bought her a twelve-dollar hat to go with the dress.

THE H. F. COMMISSIONER.

Mr. Wrigley's Mantle Falls on Mr. C. C. Chipman, Secretary to Mr. Tupper.

An Ottawa telegram to the Winnipeg Free Press says: Mr. C. C. Chipman, private secretary to C. H. Tupper, Minister of Marine, has been appointed Hudson Bay Commissioner at Winnipeg, vice Mr. Wrigley, who resigned some time ago on account of ill-health. Mr. Chipman has been in the public service for several years, being private secretary to Sir Charles for seven years, during the time he was Minister of Railways and High Commissioner. When C. H. Tupper entered the cabinet Mr. Chipman returned from London and became his private secretary. He is a Nova Scotian by birth, is about 35 years of age and is of active business habits.

Talking of patent medicines—you know the old prejudice. And the doctors—some of them are between you and us. They would like you to think that what's cured thousands won't cure you. You'd believe in patent medicines if they didn't profess to cure everything—and so, between the experiments of the doctors and the experiments of patent medicines that are sold only because there's money in the "stuff," you lose faith in everything.

And you can't always tell the prescription that cures by what you read in the papers. So, perhaps, there's no better way to sell a remedy than to tell the truth about it, and take the risk of its doing just what it professes to do.

That's what the World's Dispensary Medical Association, of Buffalo, N.Y., does with Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Favorite Prescription.

If they don't do what their makers say they'll do you get your money back.

THE FRUIT GROWERS.

The Mayor Receives a Letter—What is Victoria Going to do?

The next annual exhibition of the British Columbia Fruit Growers Association will be held in this city. Mayor Grant has received the following letter from Mr. Thomas Cunningham, of Westminster, one of the most active promoters of the cause of the association, and as it contains some suggestions that will be of use, we publish it entire, although possibly it was not written with that object. It now rests with our fruit growers to make the exhibition a success, and this, we are disposed to believe, they will be certain to do.

NEW WESTMINSTER, May 8, 1821.

John Grant, Esq., Mayor of Victoria.

DEAR SIR:—The regular quarterly meeting of the directors of the B.C. Fruit Growers' Association was held at Ladner's on the 6th inst., and among other items of business transacted it was decided to give Victoria our summer exhibition this year. No doubt this will be all the more appreciated because of its being an entirely spontaneous compliment. Unfortunately for the interest of fruit growing, your people have not co-operated much with the Mainland in pushing this important industry to the front, but we hope and expect better things from you in the near future, and I believe the decision of the directors to give the capital the coming show will bring forth fruits to the great advantage of both sections of our beloved country.

From what I know of Vancouver Island, Salt Spring, and other adjacent islands, I can state positively that many varieties of fruit can be grown to advantage. You have many beautiful, sheltered valleys of excellent soil which are well adapted to fruit culture. I have been informed that a large quantity of plums and other fruit was lost last year for want of a market. If this be true, it is a great pity, and there is no excuse for all this waste. British Columbia is the only portion of Canada where plums, prunes and the better varieties of cherries can be cultivated with success.

The object of our society is to aid in the cultivation and marketing of fruit. We have already accomplished much good by advertising not only our fruits, but our climate and resources, and surely Victoria ought to be as deeply interested in this good work as any other portion of the Province. If our society is to be the honored instrument of drawing you out of your insular shell, so to speak, we shall have accomplished much good.

You will be duly informed by our secretary that a committee, composed of yourself, Messrs. Dalby, Renouf, McTavish, Croft and Shakspeare, were appointed to look after the business in Victoria, and make the necessary preparation. I believe that it is understood you may add other friends who may desire to aid in the exhibition. Secure as many members as possible; cost of admission is only $2 per annum. Victoria ought to roll up 100 members at least, and if your worship will only give the matter the benefit of your powerful influence, this, and much more shall be done.

The date for holding the show has not been fixed on account of the unusual character of this season, and the fact that you are slightly earlier than the western portion of this district. A committee has charge of this matter, and a decision will be reached in time to give all concerned ample opportunity to prepare their exhibits. We shall do our utmost to fix the date to suit your circumstances.

May I respectfully request you to kindly call your committee together at an early day and make such arrangements as you may deem necessary, and let us know the result as soon thereafter as possible, so that due notice may be given through the press to those interested.

The revision of the prize list will not be undertaken till after we shall have heard from you. No doubt your council will do something handsome by way of a grant of money to increase our prize list, most of which will, undoubtedly, be captured by your own people.

Our society is thoroughly Provincial. We know nothing of Island or Mainland divisions—sectionalism we propose to resist; the entire Province is our field of operation, so that we have a claim on the sympathy and support of every portion of British Columbia. Under separate cover I mail you our constitution and by-laws, together with our annual report. I believe the secretary will forward you a large supply for distribution. I shall have to address you frequently as the business progresses, but the infliction of a letter of this length need not be repeated. Very sincerely yours,

THOMAS CUNNINGHAM.

P. S.—I ought to have stated that the city council of New Westminster granted a liberal donation to our society when we decided to hold our exhibition here last year. T. C.

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Sarsaparilla, as it had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

Intense Suffering 8 Years

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

PERSONAL.

Movements of Well Known People in Various Directions.

Justice and Mrs. Walkem have arrived in Ottawa.

Captain William Webster, Vancouver, is in the city.

Mrs. R. H. Hall and family came down by the Danube.

J. W. Horne, M.P.P., Vancouver, went home this morning by the Islander.

Harry Davie, of the C.P.R. telegraph staff, is out of the sick room and able to be at his post again.

Revs. Miller, Collinson, Nicholls and Hopkins were among the passengers on board the steamship Danube.

Mr. Corbould, M.P., left Ottawa last evening for home, on account of the dangerous illness of his wife.

W. H. Danby, who has been laid up with la grippe for three or four weeks, has recovered, and is again attending to business.

James Stenhouse, of the county of Russell, Ont., a brother of Mr. A. M. Stenhouse, ex-M.P.P., is at present in Scotland taking possession of a considerable fortune, which has recently come to him. It is probable that he may soon take up his residence on Vancouver Island. Mr. A. M. Stenhouse will leave for England about the middle of June, but not for a fortune, as he sold his reversionary interest in the estate concerned about nine years ago.

IT DOESN'T LOOK LIKE WAR.

To See British and American Vessels Lying Peacefully Together in a British Port.

It doesn't look like war just now to see Her Britannic Majesty's ships Pheasant and Nymphe lying in the same harbor with the American ship Pinta, all flying the flags of their respective nations, while the commanders, officers and crews of the vessels exchange the warmest courtesies of comrades in arms.

The Pinta, which arrived in Esquimalt this morning, is an American navy gun boat of about 600 tons; she carries three guns. She has been on the Alaska station for the past seven years, not having taken a trip down for the past 20 months. She is trim and neat, but does not make any pretensions to being a big warship. Her crew, all told, numbers 89, at the head of whom is Commander O. W. Farenholt, every inch a sailor and a captain. Lieutenants Emmonds, B. W. Hodges, Ensign G. W. Brown, Chief Engineer T. W. Kinkaid, Surgeon E. H. Stone and Paymaster E. B. Webster, Captain of Marines, F. W. Harrington.

The Pinta left Sitka on April 28 and touched at the various ports on the way down. On Sunday the 3rd inst. a thick snow storm occurred, lasting 30 hours, the snow falling to a depth of 8 inches. With this exception the ship met with fair weather. It was learned that the Alaskan left Stickeen May 1, the river then being open.

The Pinta will go into dock to-morrow morning, and after a few slight necessary repairs, will cruise down the Sound before returning north. It is more than likely that she will stay for the celebrations and her crew will cross a friendly oar with their British brother blue jackets.

NASAL BALM

It is a certain and speedy cure for Cold in the Head and Catarrh in all its stages.

SOOTHING, CLEANSING, HEALING.

Instant Relief, Permanent Cure, Failure Impossible.

Many so-called diseases are simply symptoms of Catarrh, such as headache, partial deafness, offensive smell, foul breath, hawking and spitting, nausea, general feeling of debility, etc. If you are troubled with any of these or kindred symptoms, you have Catarrh, and should lose no time in procuring a bottle of Nasal Balm. Be warned in time, neglected cold in head results in Catarrh, followed by consumption and death. Nasal Balm is sold by all druggists, or will be sent, post paid, on receipt of price (50 cents and $1.00) by addressing

AUCTION SALES.

VIEWFIELD

J. P. DAVIES & CO.

AUCTIONEERS

Have received instructions from the PUGET'S SOUND AGRICULTURAL COMPANY to sell by

PUBLIC AUCTION

—ON—

Thursday, May 14th,

AT 12 O'CLOCK NOON,

At their Salesrooms, Wharf street, a number of plots of land located at

VIEWFIELD

the Puget's Sound Agricultural Company's Land at MACAULEY POINT, the finest and best situation for residences adjacent to VICTORIA, the rapidly growing Queen City of the Pacific, and undoubtedly the most desirable place in which to live on the Coast.

VIEWFIELD

forms the Western Shoreline of Victoria Harbor, commencing at the Southern boundary of C Battery Barracks, and extends along the entire water front to the South and West of Section No. 24. It contains in all about 200 acres suitably subdivided into plots of land of about an acre, more or less. The shoreline itself is of the most charming description, being a succession of indentations, bays, and points intersected with smooth, sandy beaches, affording facilities for bathing, fishing, boating and the various other pleasures of the Sea Shore to an extent seldom met with.

VIEWFIELD bears favorable comparison with BEACON HILL, the pride and joy of every Victorian. The soil is similar, and there are the same stretches of lawn-like pasture land, with occasional clumps of trees so enchanting to residents and visitors.

VIEWFIELD, however, surpasses Beacon Hill in its views of the STRAITS OF FUCA, UP SOUND, and the lovely SNOW-CLAD OLYMPIC MOUNTAINS. It moreover possesses an additional charm in that a truly grand view of the City of Victoria is obtained.

VIEWFIELD has been laid out in convenient subdivisions; is traversed by well made roads 60 feet wide, drained by ditches on either side; and is but a short distance from Victoria City boundary.

VIEWFIELD has easy communication with Victoria by means of the National Electric Tramway Company's cars, which pass the approach to the property from the Esquimalt Road.

VIEWFIELD is not subject to the prevailing western winds, Albert Head acting as a wind-break; and is confidently expected to become one of the most fashionable residential localities.

VIEWFIELD has the advantage of the Esquimalt Water Works system from which it can be supplied with the best and purest water on the coast, under good pressure.

BUILDINGS—To induce the building of good residences the Company offer a bonus of 20% of the sale price of each lot to the first ten purchasers who shall within 12 months erect houses costing not less than $4000 each. Plans to be approved by their agent in Victoria, Mr. Thomas R. Smith.

The proposed extension of the Northern Pacific Railway to Victoria cannot fail to greatly increase the value of this property.

The following subdivisions have been selected, and will comprise the sale of the 14th of May, namely—

BLOCK V—Nos. 14, 15 and 16.
BLOCK XI—Nos. 3, 4, 8, 9 and 30.
BLOCK XII—Nos. 8, 11 and 14.
BLOCK XV—Nos. 9, 11 and 13.
BLOCK XVI—Nos. 3, 5, 7 and 9.
BLOCK XVII—Nos. 1, 3, 10 and 12.
BLOCK XVIII—Nos. 1, 5, 7 and 8.
BLOCK XIX—Nos. 4, 6, 11 and 13.
BLOCK XX—Nos. 1, 3, 4 and 5.
BLOCK XXI—Nos. 1, 3 and 6.
BLOCK XXII—Nos. 7, 10 and 12.

Notices have been placed on each lot in order that the public may readily see which are to be offered at auction.

Full particulars of sale will accompany the lithographed maps, which will be ready for delivery on Saturday morning, 9th May.

The terms for payment are ⅓ cash; ⅓ in one year; and the balance in two years; interest on deferred payments at the rate of 7 per cent. per annum. Deeds at purchaser's expense.
